

takeCHARGE of Your Town

WIN \$10,000

BROUGHT TO YOU BY

A key focus of the takeCHARGE program is to help raise awareness amongst residents, businesses and communities of the importance of using energy wisely and encourage more people to take action today to reduce their energy usage. We are committed to providing residents and businesses in Newfoundland and Labrador with support in their energy conservation efforts through our takeCHARGE residential and commercial rebate programs.

In our 14th year of *takeCHARGE of Your Town*, we will once again be inviting municipalities to submit proposals that will support their efforts to develop or improve energy conservation or energy efficiency projects. Projects must demonstrate a positive effort to conserve energy that benefits the entire community. Examples of eligible projects include, but are not limited to, energy efficient upgrades to a town hall or municipal building.

We are now accepting proposals. The deadline for submission is 4:00 p.m., Friday, April 11th, 2025. A successful proposal will be announced Spring 2025.

takeCHARGE of Your Town

2023/2024 Winners

Town of Grand Falls – Windsor

The Town of Grand Falls – Windsor will use their grant to install two heat pumps in the Corduroy Nature Centre. The Centre currently does not have the heating or cooling capability to keep the main event spaces sufficiently useable so this project will allow them to further expand their current offerings to community groups.

Town of Norris Point

The Town of Norris Point will use their grant to work in collaboration with the Bonne Bay Cottage Hospital to install two heat pumps. The heat pump installation will improve their building's energy efficiency, reduce their heating costs, and decrease their greenhouse gas emissions.

TELL US ABOUT YOUR PROPOSAL

**WIN
\$10,000**

- Projects need to demonstrate energy conservation or energy efficiency.
- One grant of \$10,000 will be awarded.
- Proposals must indicate how funding will be used by December 31st, 2025.
- Proposals can be submitted **online** at **takechargenl.ca/news-events/town-challenge**, by **email** to **townchallenge@takechargenl.ca** or by **mail** to your utility.

Proposals must include the following:

1. Municipality name
2. Contact name
3. Contact phone number
4. Contact email
5. A detailed description of the project
6. The total estimated cost of the project
7. Other partners including additional project funding
8. How the takeCHARGE of Your Town grant will be used
9. How our employees can provide hands-on support
10. The overall benefit to the community
11. Any additional information that will support your proposal
